

Welcome to Balsamiq!

This is a sample project to help you get started

We created these wireframes to help you learn how to use Balsamiq, and quickly become awesome at wireframing!

Don't worry, it's **SUPER** easy. :)

If you want to just roll your sleeves up and get started on your own wireframes in a new, blank project, click the [Project Menu](#) in the top left corner of this screen and choose **New Project**
